Mr. Nico Montorsi
BP America, Inc.
200 Westlake Park Blvd.
Houston, TX 77079

Dear Mr. Montorsi:

The gift to our school system (Curriculum on Wheels-COW) continues to have rippling effects in our Parish's schools. The success that we have seen over the past several months merited a recent film crew that came to Pointe Coupee to capture the excitement shared by teachers and students alike as it related to the COW! Thank you, again, for introducing Pointe Coupee Parish to such a phenomenal teaching tool. Had it not been for your initiatory introduction to the COW, I doubt that we would have had any idea that this tool, designed to help enhance student and teacher performance, could even exist.

I would also like to mention that Ignite Learning's customer service could not be better. Representatives conducted yet another extensive teacher training that covered best practices and further professional development for our teachers last week. The Ignite team came in to help our teachers get even better results in their *classrooms* and taught them additional methods of using the COW, many of which had not been realized. Ignite is wonderful to work with and they certainly reflect BP's standard of excellence.

As you know, there are a great number of teachers in our parish that do not have the advantage of using a COW on a regular daily basis in their classroom. The *Pointe Coupee* Parish School System is striving for excellence in education and would like to help every student achieve high marks on the iLEAP and LEAP tests. If it is at all feasible, would you please consider providing additional COW units to our parish for Science and Social Studies education? BP, is a very important community asset for Pointe Coupee Parish, and again, we THANK YOU for all that you *do* for us!

Sincerely,

Daniel R, Rawls, Ph.D., Superintendent
