

Congratulations!

You are about to achieve new academic heights with your Ignite! Torch, which has been specially configured for your requested content area(s), grade level(s), and state's academic standards.

Instructions for use:

- 1) Connect the Torch to an available USB 2.0 port on a computer which meets the requirements below.
- 2) Two windows should pop up – the file folder that contains this ReadMe file, and another window asking if you'd like to run the Torch. Click Ok to run the Torch. If this window does not appear, continue on to steps 3 and 4.
- 3) You will notice two new drives available under My Computer.
Find the drive labeled with "Ign" and the  icon.
- 4) Open this drive and double-click the file named **torch**, again labeled with the  icon.

Support:

You can reach Ignite Learning support through any of the following:

- **email** us at support@ignitelearning.com
- **call** us at 866-464-4648
- **visit** <http://www.ignitetorch.com> for helpful training videos.

Minimum PC Requirements:

- Windows XP, Vista, or Windows 7
- No internet connection required
- One USB 2.0 Port (2 ports for Promethean integration - 2nd port for ActiveHub)
- Pentium 1.5 GHz (or compatible)
- 512MB RAM
- Digital Projector
- Stereo Speakers
- For Promethean integration
 - ActivDriver 5.4.6 or later
 - ActivStudio Expression Edition 1.1.6238 or later
